1.	A well-known social media influencer posts a video criticizing a newly released smartphone brand. In the video, the influencer angrily calls customers who buy the phone "idiots" and "mindless followers", accusing them of wasting money and lacking common sense. The language used is harsh, mocking, and full of sarcasm, leading many viewers to feel insulted. What are the differences between offensive speech and hate speech? Based on the scenario above, identify which type of speech is demonstrated and justify your answer.	5
2.	Robiul, a freelance journalist, is worried about her browsing history being tracked while researching sensitive political topics. On the other hand, "HealthPlus," a hospital chain, wants to share patient data with researchers to cure diseases but must ensure no individual patient can be identified from the dataset. Explain how Privacy Enhancing Technologies can be utilized by consumers (like Robiul) and businesses (like HealthPlus) to protect privacy. Discuss relevant examples of technologies that would solve the specific problems in this scenario.	5
3.	Define censorship and discuss its relationship with offensive speech and also in the context of the global internet.	5
