Program: B. Sc. in Agricultural Science
Semester: Summer 2025
Student ID: [redacted]
Course Title: Art of Living
Course Code: 0223-111
Section: B
Your Signature:

You and your team are enjoying your vacation on a modern ship, like the Titanic. Unfortunately, the ship is severely damaged and can no longer continue its journey. About 2 kilometers away, there is a remote island, and you have no option but to reach it to survive. Before reaching the island, you need to remember that regular rescue may take several days or even months, and available resources are extremely limited. You are given a list of survival items. **You may choose only FIVE items from the list** to help your team survive until rescue arrives.

1. Satellite Phone (Low battery) 2. First aid kit 3. Multi tool knife 4. Water purification tablets 5. Fishing Net 6. Emergency food ration (3 days) 7. Trap 8. Flare gun (3 flare) 9. Fire starter 10. Compass 11. Rope (40 meters) 12. Solar power flashlight 13. Small raft (5 person)	Select only five items from the list. **Your choice** **1.** **2.** **3.** **4.** **5.**

Justify your choices based on survival priorities
There is no single correct answer—your reasoning matters most.
