Time: 2 Hours **Full Marks:** 40

Split answering is strictly prohibited

You may use color pens (except red), pencils, and relevant diagrams or drawings to support your answers.

1.	Identify any five (05) essential skills required for success in the 21st century. Briefly explain how each skill can help a university student achieve academic, personal, and professional development.	PLO3 CLO2 C2	5
2.	*"You never get a second chance to make a first impression."* In the context of impression management, explain five (5) impression management strategies you would use to create a strong first impression and maintain a professional image.	PLO4 CLO2 C3	5
3.	What is mind mapping? Mention two (2) common uses of mind mapping. Draw a mind map illustrating the major aspects of "Career Development in the Agricultural Sector." Briefly explain the main branches in your mind map.	PLO2 CLO2 C1, C3	2+8
4.	Mr. Anwar Hossain, a second-year university student, has recently started a fresh food business called *Campus Cravings*. Along with attending classes, laboratory work, assignments, examinations, and fulfilling family and social responsibilities, he finds it difficult to manage his time effectively. Analyze Anwar's situation and recommend two (2) appropriate time management strategies. Explain how each strategy can help improve his productivity and maintain a healthy work–life balance.	PLO6 CLO3 C4	5
5.	Explain why financial management is important for university students. Evaluate essential four financial habits that can help achieve long-term financial stability and wealth creation.	PLO6 CLO4 C5	5
6.	Artificial Intelligence (AI) is transforming the way people learn and work. Analyze the impact of AI on the education and agricultural sectors. Additionally, briefly discuss any four (4) ethical concerns that should be considered when using AI responsibly.	PLO1 CLO3 C4	3+2
7.	"The internet gives power to everyone—use it to spread truth, not harm." Despite increased awareness, cyberbullying continues to affect individuals' mental health, academic performance, and social relationships. Define cyberbullying, critically examine different types of cyberbullying with appropriate examples, and justify two (2) strategies to protect yourself and others from cyberbullying in online environments.	PLO5 CLO4 C5	1+2+2
