Course Title: Bangladesh Studies
Quiz: **02** Batch: 70_J
Time: 45 minutes Marks: 2*7.5=**15**

Question 1:

An economist visiting a riverside market in Sirajganj remarks: "Being a riverine country with about 700 rivers, Bangladesh's economic growth is inseparably tied to its river systems." Local traders and farmers overhear the comment and begin discussing its validity.

Based on the above scenario, answer the following:

a. Evaluate the economist's statement by analysing the role of the five major river networks in Bangladesh's economy. **(7.5 marks)** **(CO1)**
b. Identify both the opportunities and the challenges these rivers create for national development, giving concrete illustrations. **(7.5 marks)** **(CO1)**
